PERFORMANCE

CE

EAN Code:

8388765800755

Description

Sanitizing liquid soap with emollient active ingredients like aloe vera extract, milk's proteins and glycerine.

The soap is dermatologically and nichel tested to prove skin tolerability.

PROPERTY'

The soap eliminates 99,9% of bacteria. The bactericidal agents used are: benzalkonium chloride and salicylic acid.

DOSAGES AND METHODS OF USE

Apply the soap on dry hands and add water. Wash and rise with water.

FIELD OF USE

To clean hands in all those environments where a higher level of sanitizing hygiene is required such as laboratories for the food industry, hospital, geriatric environment, medical, dental offices, etc.
